KV6014 GROUP GP6 · ROSE FOUNDATION MALAYSIA COMMUNITY HEALTH PORTAL

ROSE · PULSE HiFi Design System & Component Library

62 Pure Web (1440×900) Vector Artboards · WCAG 2.1 AA/AAA Verified Tokens · Bilingual EN ↔ Bahasa Melayu Auto-Layout Architecture

1. Design Philosophy & Semantic Color Palette

ROSE · PULSE replaces cold, intimidating clinical hospital palettes with warm, grounded Malaysian community health tones. Deep Forest Green (**#153B30**) anchors role-scoped navigation, Emerald Action (**#1F6F50**) signals primary interactive controls, and Warm Cream (**#FAF8F4**) eliminates harsh white screen glare for older residents.

Forest 900 #153B30	Emerald 600 #1F6F50	Warm Gold 400 #DFB982
11.9:1 AAA · 220px Role-Scoped Sidebar & Header	**6.1:1 AA+** · Primary Buttons, Active Pills & Focus	**9.6:1 AAA** · Active Nav Pill & Hero Browse CTA

Warm Cream #FAF8F4	Amber Notice #FDF6E7	Coral Alert #FDF2EE
13.6:1 AAA · Portal Background & Input Surface	**5.8:1 AA** · Awaiting Review & Waitlist Banners	**7.3:1 AAA** · Friendly Validation & Dup ID Guard

2. Modular Typography & 1440×900 Auto-Layout Grid

Every artboard adheres to a strict **1440×900px** desktop/tablet viewport divided into a fixed **220px** left navigation rail and a **1220px** main workspace (**1164px** content container with 28px horizontal gutters). All interactive targets enforce a minimum 36–48px click height and elastic width rules for Bahasa Melayu text expansion.

Token / Scale	Spec (px / wt)	CSS Variable	Applied Component Context
Hero Display	30px / 800 Bold	`--rp-text-2xl`	Scenic mountain-lake hero headline (P-01 EN & P-02 BM)
Page Heading	22px / 800 Bold	`--rp-text-xl`	Search Results header (P-01S), Event Detail title, Queue title
Card Title	16–18px / 700 Bold	`--rp-text-lg`	3-column Event Cards (372px wide) & Modal Dialog headers

Token / Scale	Spec (px / wt)	CSS Variable	Applied Component Context
Primary CTA & Body	13.5–15px / 600	`--rp-text-base`	48px Submit buttons, 42px 6-field inputs, and sidebar items
Status & Locale Pill	11.5–12px / 700	`--rp-text-xs`	Segmented `EN | BM` pill, Online/Offline quota badges

3. Core Reusable UI Components & Interactive States

Component	Variants & States	UX Behaviour & Engineering Contract
Role-Scoped Sidebar `.rp-sidebar`	Guest · Logged-In User · Leader · Organizer	Prevents cognitive overload by hiding administrative tabs from public Guests while highlighting the active route in Warm Gold (#DFB982).
Bilingual Toggle Pill `.rp-lang-switcher`	EN Selected ↔ BM Selected	Positioned consistently at `(x=1146, y=66)` across all 62 artboards; switches UI copy immediately without resetting form inputs.
Search & Filter Bar `.rp-search-bar`	Default (P-01) → Focused Results (P-01S)	Combines keyword matching, category count pills (`Screening (3)`), venue/month/availability dropdowns, and 1-click Reset.
Guest 6-Field Form `.rp-guest-mode-banner`	Empty · Filled · Dup ID Retained · Receipt	Allows immediate booking without an account; preserves all typed values on duplicate MyKad notice (P-06E) and auto-focuses receipt (P-08).
150% Doc Lightbox `.rp-lightbox-modal`	Row Thumbnail (O-07) → 150% Modal (O-09)	Enlarges clinic referral slips and MyKad PDFs directly inside the queue so Organizers can verify and click *Approve (Luluskan)* in one view.

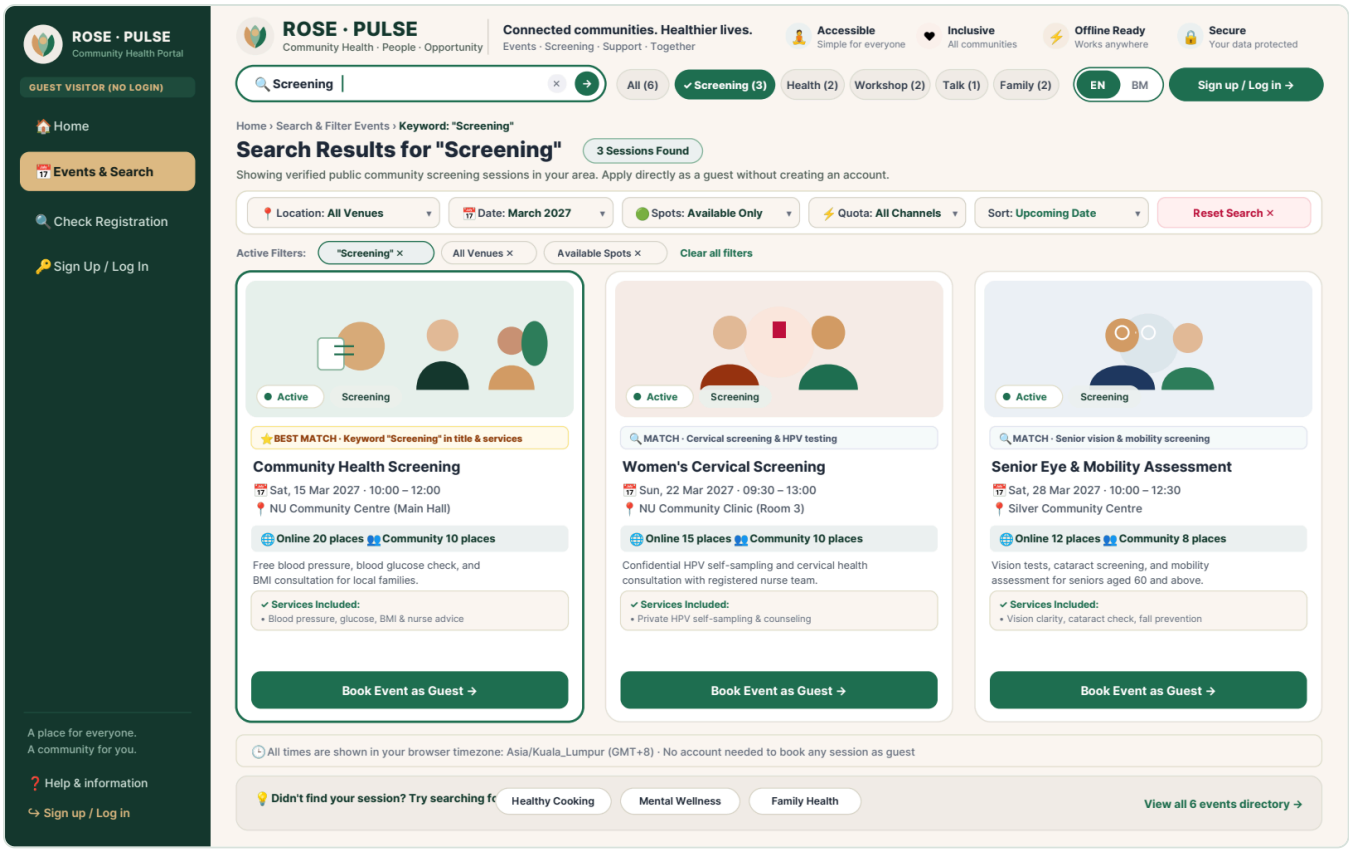

Figure 1: Artboard P-01S demonstrating the focused Search Input, Category Count Pills, Multi-Facet Filter Bar, and 3-Column Screening Event Cards.

4. High-Fidelity Component Application Across All 3 Roles

> **Strict 3-Role RBAC + US-09 Check-In Sub-Function Consistency**
>
> Every screen in the 62-state Figma kit maps cleanly to `users.role IN ('user', 'leader', 'organizer')`, with Event-Day Check-In & Walk-In (`F-01..F-10`) structured as an operational sub-function under Role 3 Organizer per US-09.

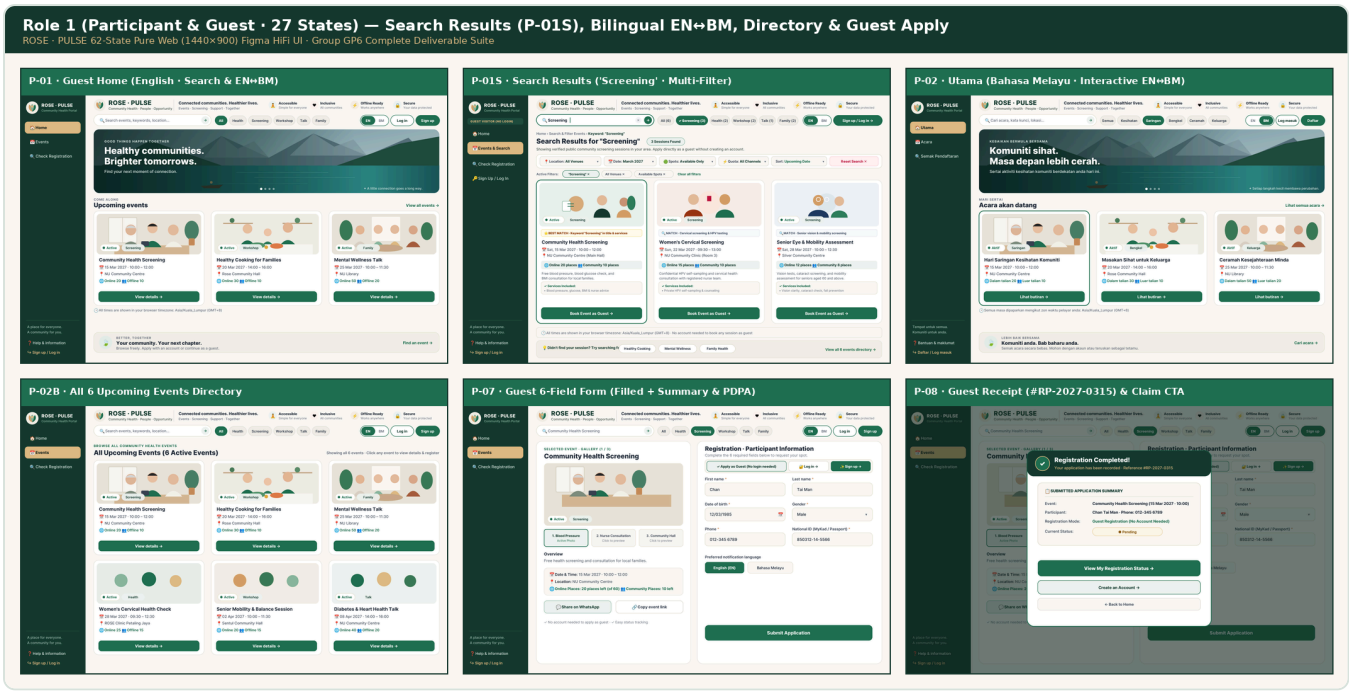

Figure 2: Role 1 (Participant & Guest) — English Home (P-01), Search Results (P-01S), Bahasa Melayu Home (P-02), Directory (P-02B), and Guest Booking (P-07, P-08).

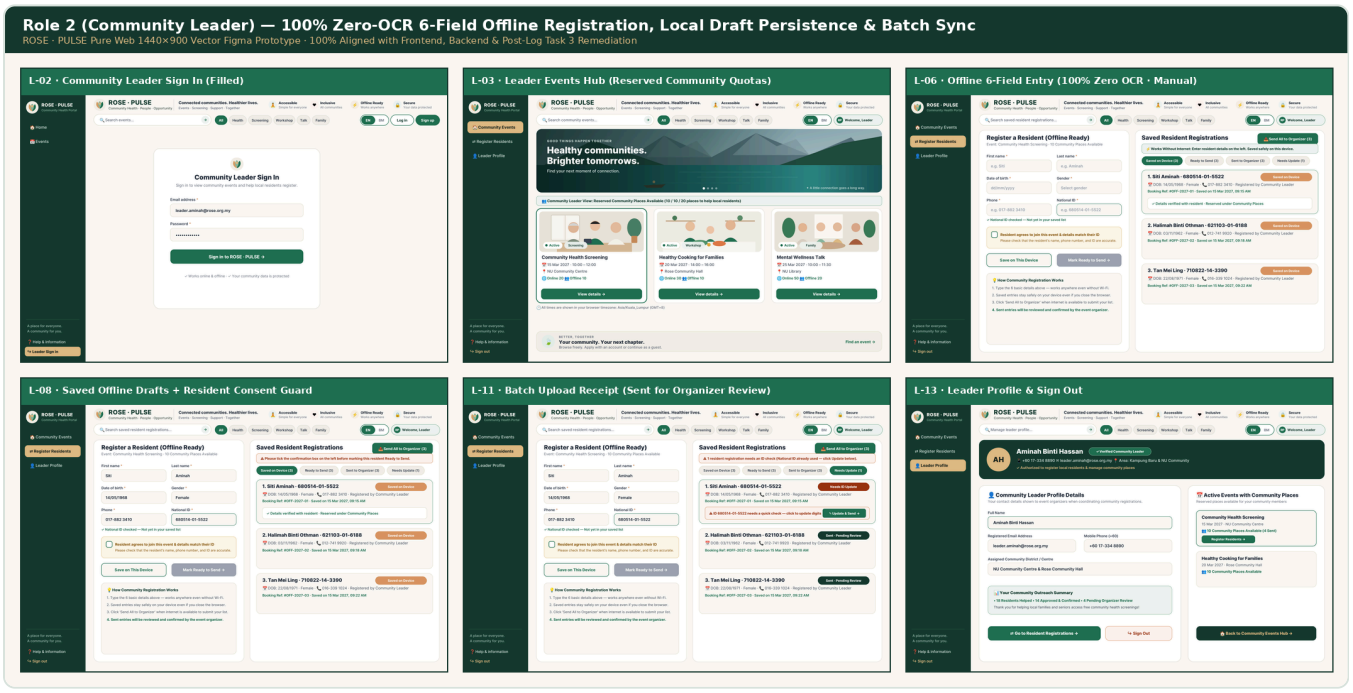

Figure 3: Role 2 (Community Leader) — 100% Zero-OCR 6-Field Manual Offline Entry (L-06), Local Consent Guard (L-08), and Batch Upload Receipt (L-11).

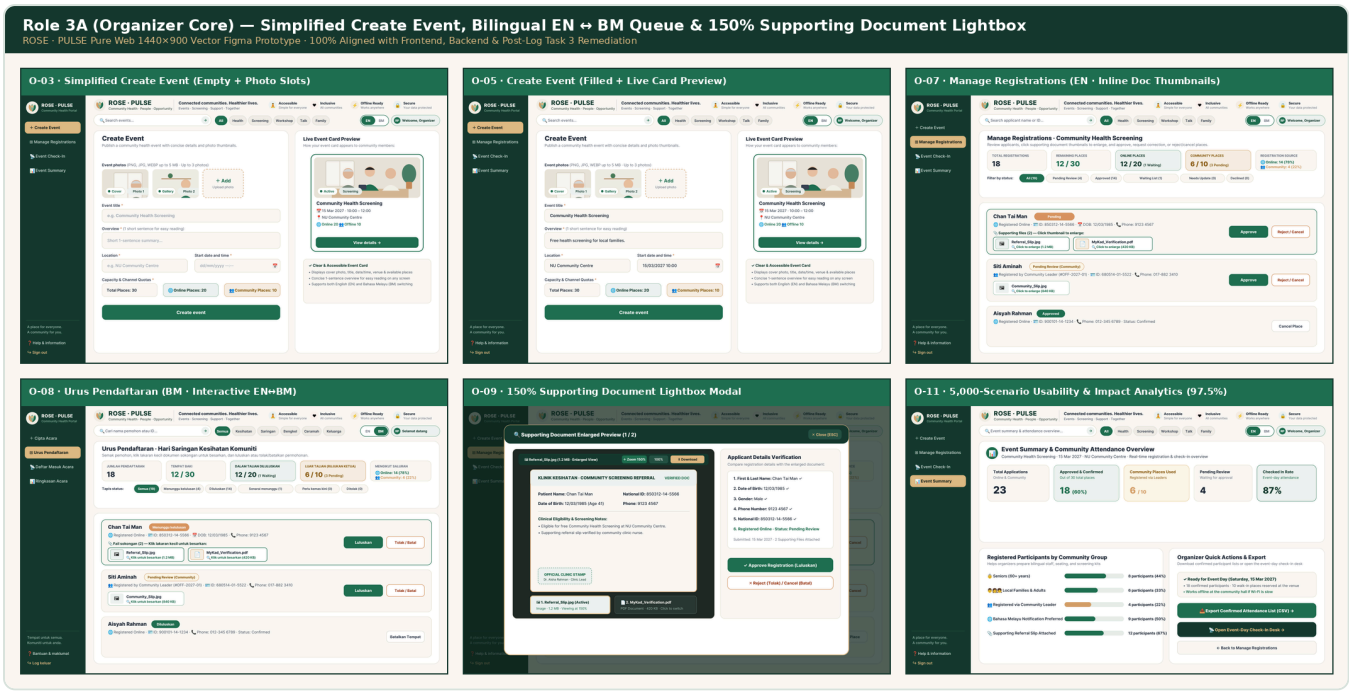

Figure 4: Role 3A (Organizer Core) — Simplified Create Event (O-05), Bilingual Queue (O-07/O-08), and 150% Supporting Document Lightbox (O-09).
