GROUP GP6 · END-TO-END CROSS-ROLE JOURNEY & NODE-BY-NODE FIGMA WIRING ARCHITECTURE

ROSE · PULSE Comprehensive User Flow Diagram (62 Interactive States)

Covers Participant & Guest (27 States incl. P-01S Search), Community Leader Zero-OCR Offline (13 States), Organizer Core (12 States) & US-09 Check-In (10 States)

1. Cross-Role Closed-Loop Ecosystem & Quota Synchronization

All four operational journeys connect through shared Online and Offline Community Quotas, automatic waiting-list promotion, and Semester 2 clinical hooks:

1. Guest & Participant (P-01..P-20)

Switch EN↔BM (P-01/P-02) → Search “Screening” (P-01S) → Apply as Guest (P-03..P-08) → Lookup Status (P-09B/C) or Claim via 6-Digit SMS OTP (P-14..P-18).

2. Offline Leader (L-01..L-13)

Sign In (L-02) → View Protected Quota (L-03) → 6-Field Manual Entry with Zero OCR (L-06) → Local Draft & Consent Lock (L-07/L-08) → Batch Sync (L-09..L-12).

3A. Organizer Core (O-01..O-12)

Publish Dual-Quota Event (O-03..O-06) → Review EN↔BM Queue (O-07/O-08) → Zoom Doc at 150% Lightbox (O-09) → Approve (O-10) & Export CSV (O-12).

3B. US-09 Check-In (F-01..F-10)

Preload Offline Roster (F-01) → Search Arrival (F-03/F-04) → Register 6-Field Walk-In (F-05..F-07) → Dup Guard (F-08) → Sync & 87% Summary (F-09/F-10).

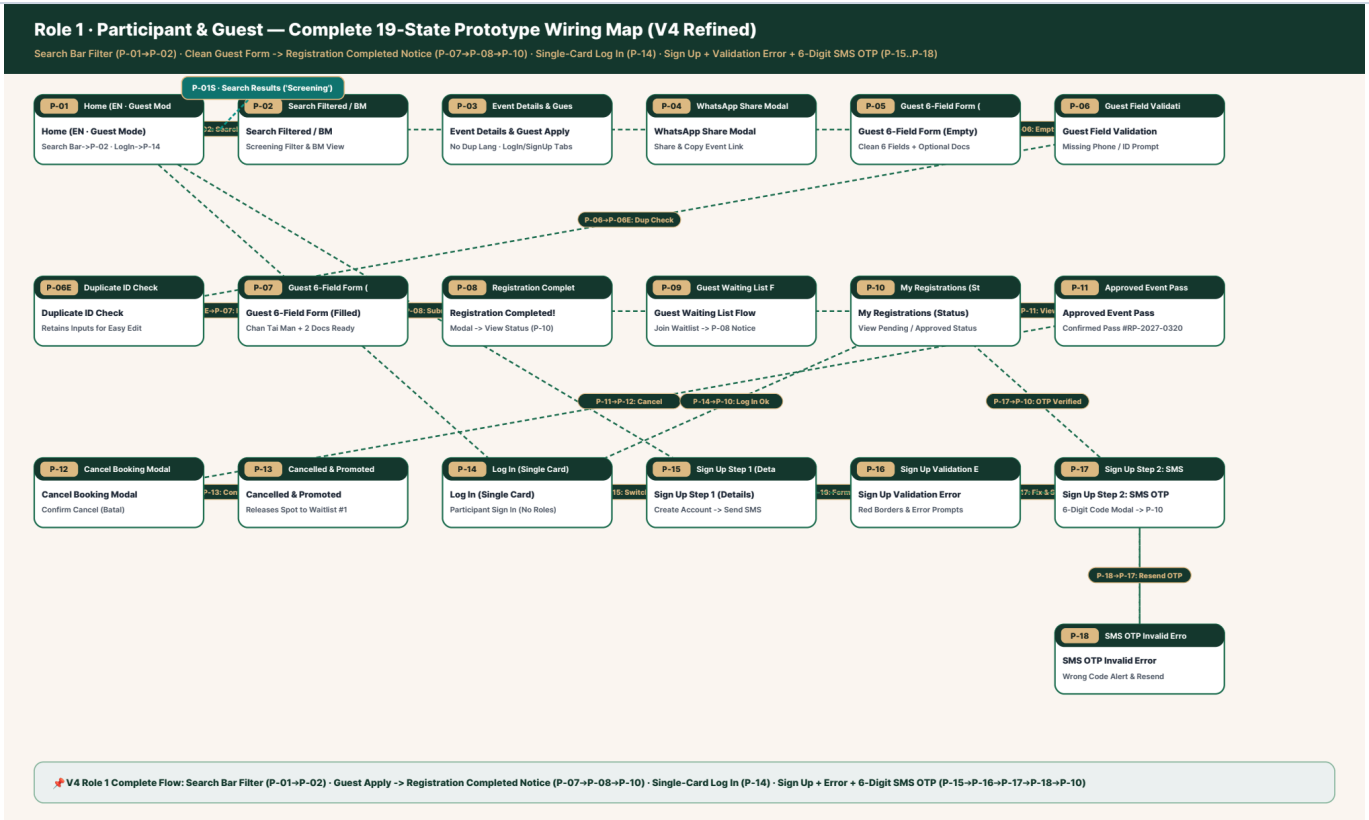

Diagram 1: Role 1 (Participant & Guest) Complete 27-State Node-by-Node Prototype Wiring Map (P-01 & P-01S Search Results through P-20 Help).

2. Community Leader Offline Sync & Organizer Clinical Review Flows

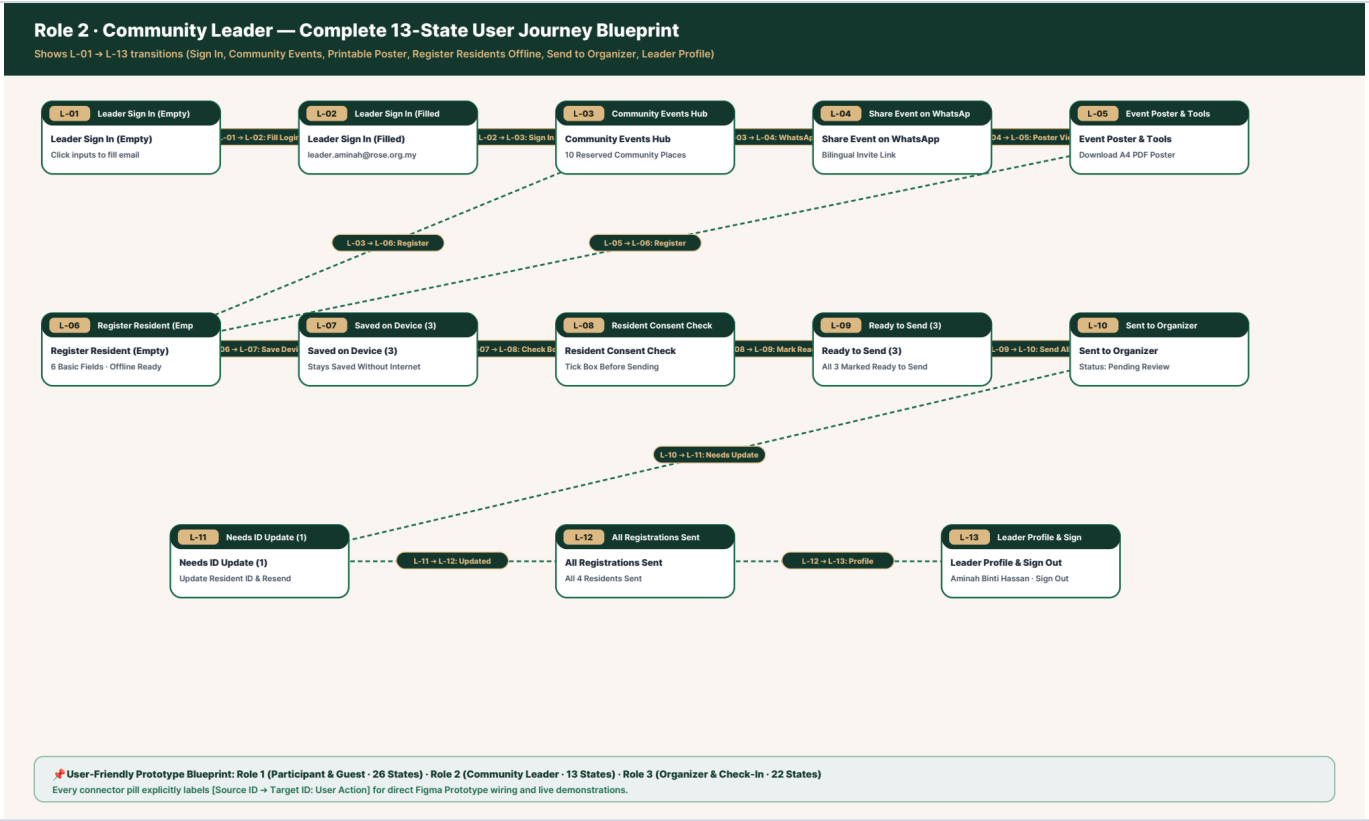

Diagram 2: Role 2 (Community Leader) 13-State Zero-OCR Offline Registration, Local Persistence & Idempotent Batch Sync Wiring Map (L-01 to L-13).

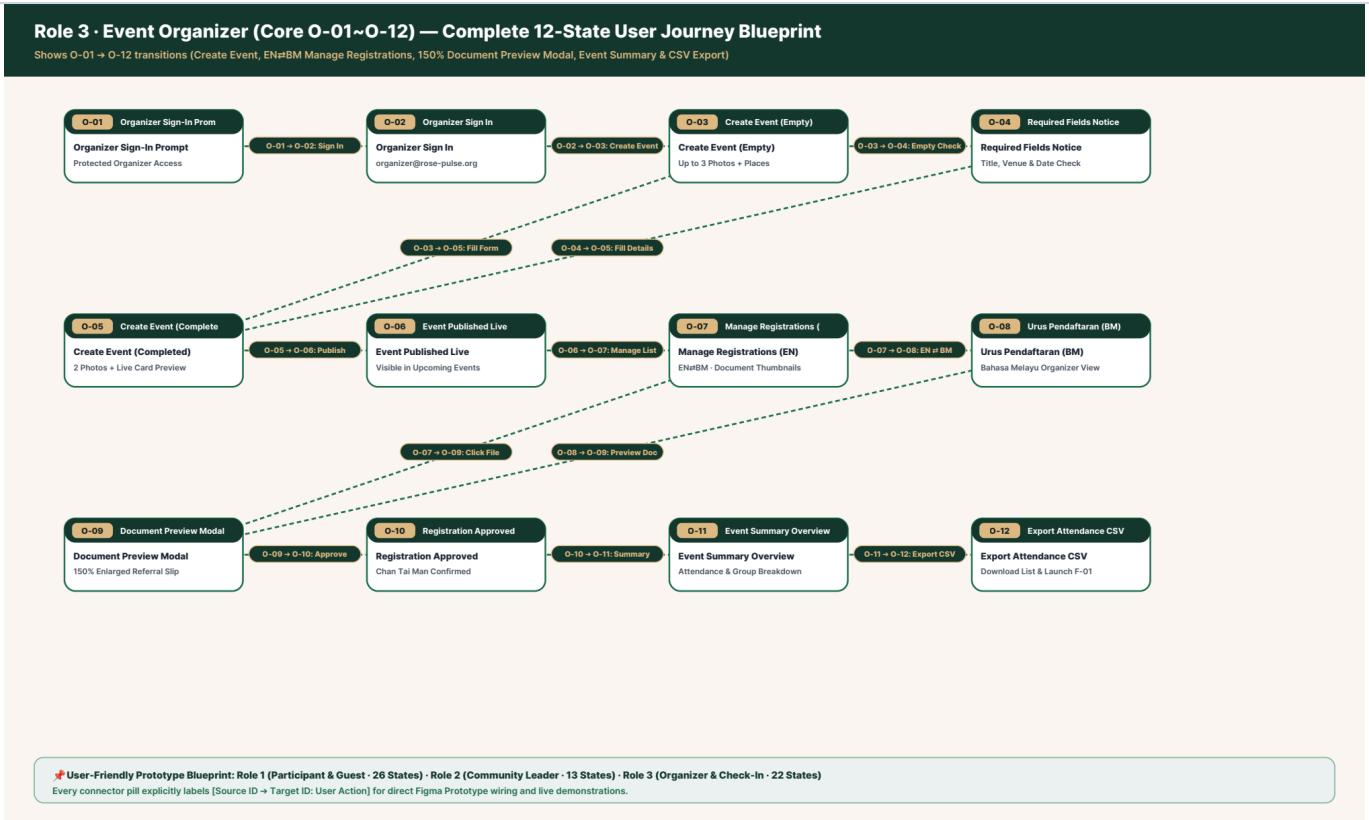

Diagram 3: Role 3A (Organizer Core) 12-State Event Creation, Bilingual Queue & 150% Supporting Document Lightbox Wiring Map (O-01 to O-12).

3. US-09 Event-Day Check-In Flow & Semester 2 Funded Extension Hooks

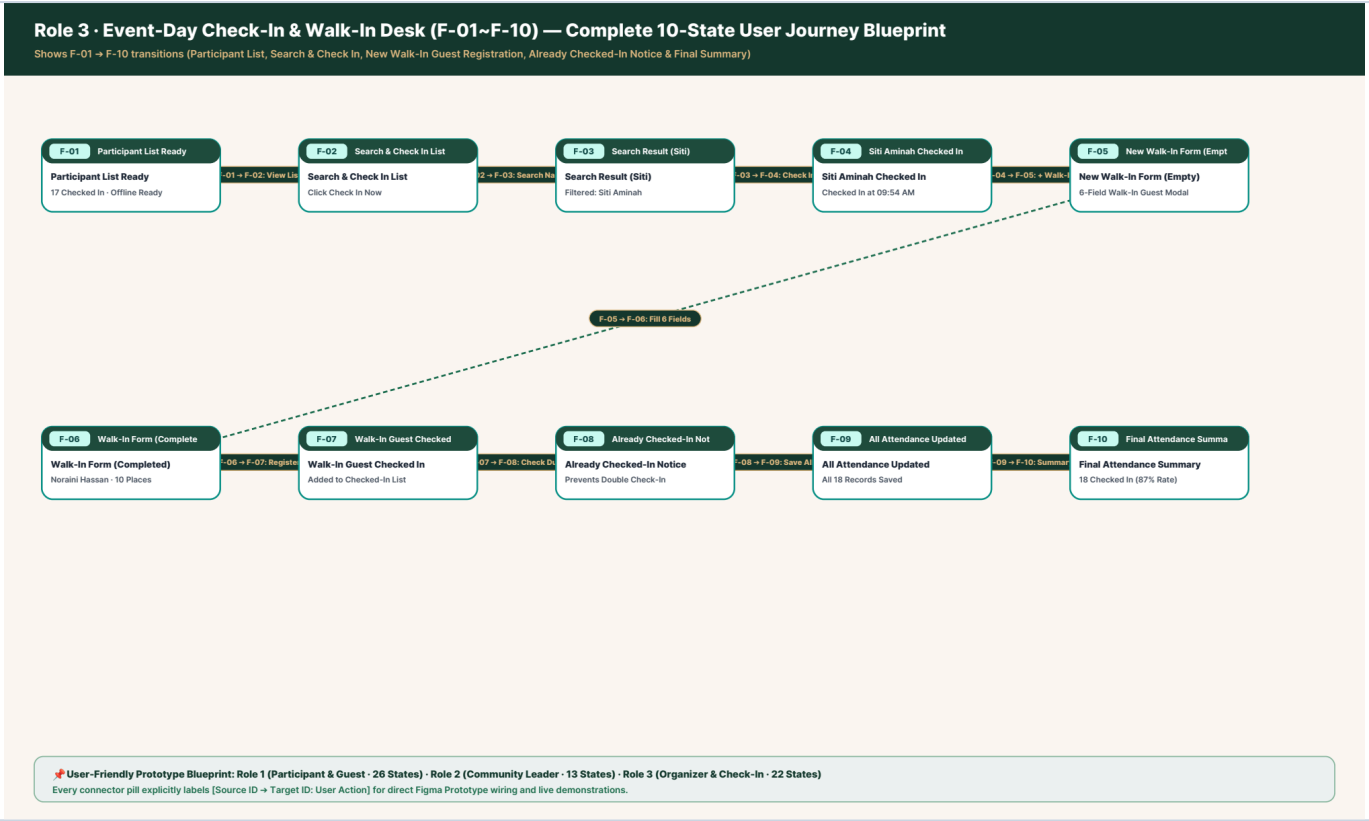

Diagram 4: Role 3B [US-09 Operational Sub-Function] 10-State Offline Check-In Roster, 6-Field Walk-In Desk & Attendance Summary Wiring Map (F-01 to F-10).

Extension Hook	Originating Flow Node	Semester 2 Automated Trigger (Sprints 4–6)	Downstream User / Clinical Outcome
F8 (Sprint 4)	P-12 → P-13 Cancellation	WhatsApp Business Cloud API webhook dispatches 24h offer-hold link	Waiting List #1 claims released screening slot in 1 tap without phone tag
F9 (Sprint 5)	F-04 On-Site Check-In	Nurse binds HPV self-sampling swab barcode to verified participant ID	Participant receives SMS OTP alert and views encrypted result via P-17/P-19
F10 (Sprint 6)	O-03 & O-12 Admin	Multi-village Mobile Clinic Van route scheduler & de-identified export	Direct epidemiological reporting compliant with MOH Malaysia NHMS
